SIRA no. 877797

- Bicycle, foot and vehicle patrols conducted in both uniform as well as civilian dress.
- Surveillance conducted in areas adjacent to Kirstenbosch Gardens and M3.

4. Snags.

- Dr. Oodit 1 Aster Street. – Alarm problems experienced. Peninsula alarms responsible for this client. 26/04/2011 – Power failure caused control room to deal with over 500 alarms, caused a delay in getting alarm activation to Armed response officer.
- Signboards: Going up, but not as fast as we would like. Held up due to adverse weather and work load of technical team. SRT members tasked to assist and have commenced putting boards up.
- Telephone lines in admin centre have not been sorted out to our satisfaction. Telkom busy with new installation. Current service provider was replaced with a new company and they seem to have solved our problem. This is being monitored daily.

Overall, April was busy. Many residents are requesting the meet and greet service. We have received leads and pledges which have resulted in 26 residents making appointments with us to see them as well.

Yours sincerely

Allan Dillon
